## 1. Affected Properties in Carlton and Carlton North

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded blue relate to C graded properties in City North precinct Heritage Overlays. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised. The entries shaded purple relate to D graded properties within individual Heritage Overlays.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.

## 2. Affected Properties in East Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.

### 3. Affected Properties in Kensington

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised. The entries shaded purple relate to D graded properties within individual Heritage Overlays.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.

## 4. Affected Properties in Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded blue relate to C graded properties in City North precinct Heritage Overlays. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised. The entries shaded purple relate to D graded properties within individual Heritage Overlays.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.

## 5. Affected Properties in North Melbourne and West Melbourne

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded blue relate to C graded properties in City North precinct Heritage Overlays. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay), a correction to a mapping error for the relevant Heritage Overlay or a change to the heritage categories for 53 Hawke Street, 55 Hawke Street and 65-67 Peel Street, West Melbourne to correct errors identified in the Amendment C258melb Panel hearing by the heritage expert who authored the *West Melbourne Heritage Review, 2016*. These entries are shaded grey.

## 6. Affected Properties in Parkville

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised. The entries shaded purple relate to D graded properties within individual Heritage Overlays.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.

## 7. Affected Properties in South Yarra

Most of the entries in this table relate to buildings that have had their heritage category converted as part of Amendment C396, including buildings which are not proposed to be added to the Inventory because they have been assessed to be Non-contributory. The entries shaded orange relate to properties which were previously omitted or incorrectly categorised. The entries shaded purple relate to D graded properties within individual Heritage Overlays.

The table also includes buildings which have not had their heritage category converted as part of Amendment C396 but are affected by the amendment because of a change to the address used in the listing in the Inventory, a change to the address used in the Schedule to Clause 43.01 (Heritage Overlay) or a correction to a mapping error for the relevant Heritage Overlay. These entries are shaded grey.
