

Amendment C396: Compilation of existing Heritage Overlay maps and amendment maps showing minor changes and corrections

May 2021, updated September 2021*

Amendment C396 is primarily a heritage conversion exercise. However, a small part of Amendment C396 involves making corrections and changes to Heritage Overlay maps in some suburbs. This document has been prepared to assist in understanding these changes by allowing easier comparison with the existing Heritage Overlay maps.

Each section contains an excerpt of existing Heritage Overlay maps followed by planning scheme amendment maps showing areas to be deleted from and/or areas to be added to the Heritage Overlay.
