

DRAFT ANNUAL PLAN

2022-2023

CITY OF MELBOURNE

PURPOSE OF THIS DOCUMENT

This plan describes the key activities the Council will undertake in 2022-23 in order to make progress towards its commitments in the four-year Council Plan 2021-2025. It should be read in conjunction with the Council Plan 2021-2025 which was developed with the community through a process of deliberative engagement and outlines the Council's vision, strategic objectives, priorities, major initiatives and measures of success. This plan represents a companion document to the Budget 2022-2023 which outlines how the Council will resource its activities over the financial year.

Acknowledgement of Traditional Owners

The City of Melbourne respectfully acknowledges the Traditional Owners of the land we govern, the Wurundjeri Woi Wurrung and Bunurong Boon Wurrung peoples of the Eastern Kulin and pays respect to their Elders past, present and emerging.

We acknowledge and honour the unbroken spiritual, cultural and political connection the Wurundjeri, Bunurong, Dja Dja Wurrung, Taungurung and Wadawurrung peoples of the Eastern Kulin have to this unique place for more than 2000 generations.

We are committed to our reconciliation journey, because at its heart, reconciliation is about strengthening relationships between Aboriginal and non-Aboriginal peoples, for the benefit of all Victorians.

FOREWORD

Melbourne is fortified by its experiences over the pandemic, and as a result we're achieving braver and bolder outcomes for our community, economy and environment.

As a council, we continue to improve and deliver exceptional services for our residents and ratepayers as we embark on this, our second year of our four-year Council Plan, supported by our Budget 2022-23.

Our focus remains on attracting talent, students, investors, business owners, visitors, and residents.

We are a city for people and possibilities.

We are on track to exceed pre-pandemic levels of workers, residents and students and to grow our gross local product and city economy to \$150 billion by 2031.

In this year's Annual Plan, I particularly note the following projects:

We will harness our community's passion to support rough sleepers by securing more funding for our \$20 million landmark Make Room initiative.

The first milestone in our \$300 million Greenline plan is complete, and we look ahead to the next phases, which will see a stunning four-kilometre promenade created along the northbank of our Yarra River – Birrarung.

Finally, Power Melbourne continues to garner interest from partners to create a network of mid-scale batteries across the city that will encourage greater uptake of renewables and see us become a city powered by 100 per cent renewable energy by 2030, and reach zero net emissions by 2040.

We're back on track for another big year of growth and extraordinary outcomes for Melbourne.

Melbourne's economic recovery grows ever stronger and this Annual Plan embeds our commitment to the community's aspirations and priorities.

While the effects of the pandemic linger in some sectors, we continue to support our community as we move into the second year of our four-year Council Plan. Our staff go above and beyond in delivering essential services and they are the welcoming face of many of our creative initiatives such as pop-up libraries in surprising locations, and events that support international students.

The business community has been well supported by our Business Concierge Service which will continue to deliver timely advice. The city continues to reactivate, with pedestrian numbers at 85 per cent of pre-COVID levels. To ensure Melbourne is in great shape, a thorough city cleaning and graffiti blitz has been underway.

I'm proud that our staff work to ensure Melbourne is an inclusive and accessible city. That's why we continue to upgrade sports facilities for women, and embed gender equity principles in our organisation.

Importantly, we collaborate and we listen. We recognise the unique needs of different neighbourhoods. We partner with industry and international contacts to spark innovation and deliver renewable energy initiatives. In consultation with Aboriginal communities, we'll establish a Stolen Generations memorial site, with planning beginning this year.

May I thank City of Melbourne councillors, staff and stakeholders, together with our partners in business and the community. I look forward to all that we can achieve together in the second year of our Council Plan.

NEIGHBOURHOOD PLANNING

Melbourne is a dynamic municipality with a broad set of neighbourhoods, each with its own unique characteristics and needs – from densely populated urban environments, such as the central business district, to more residential areas, such as Kensington, Carlton and South Yarra.

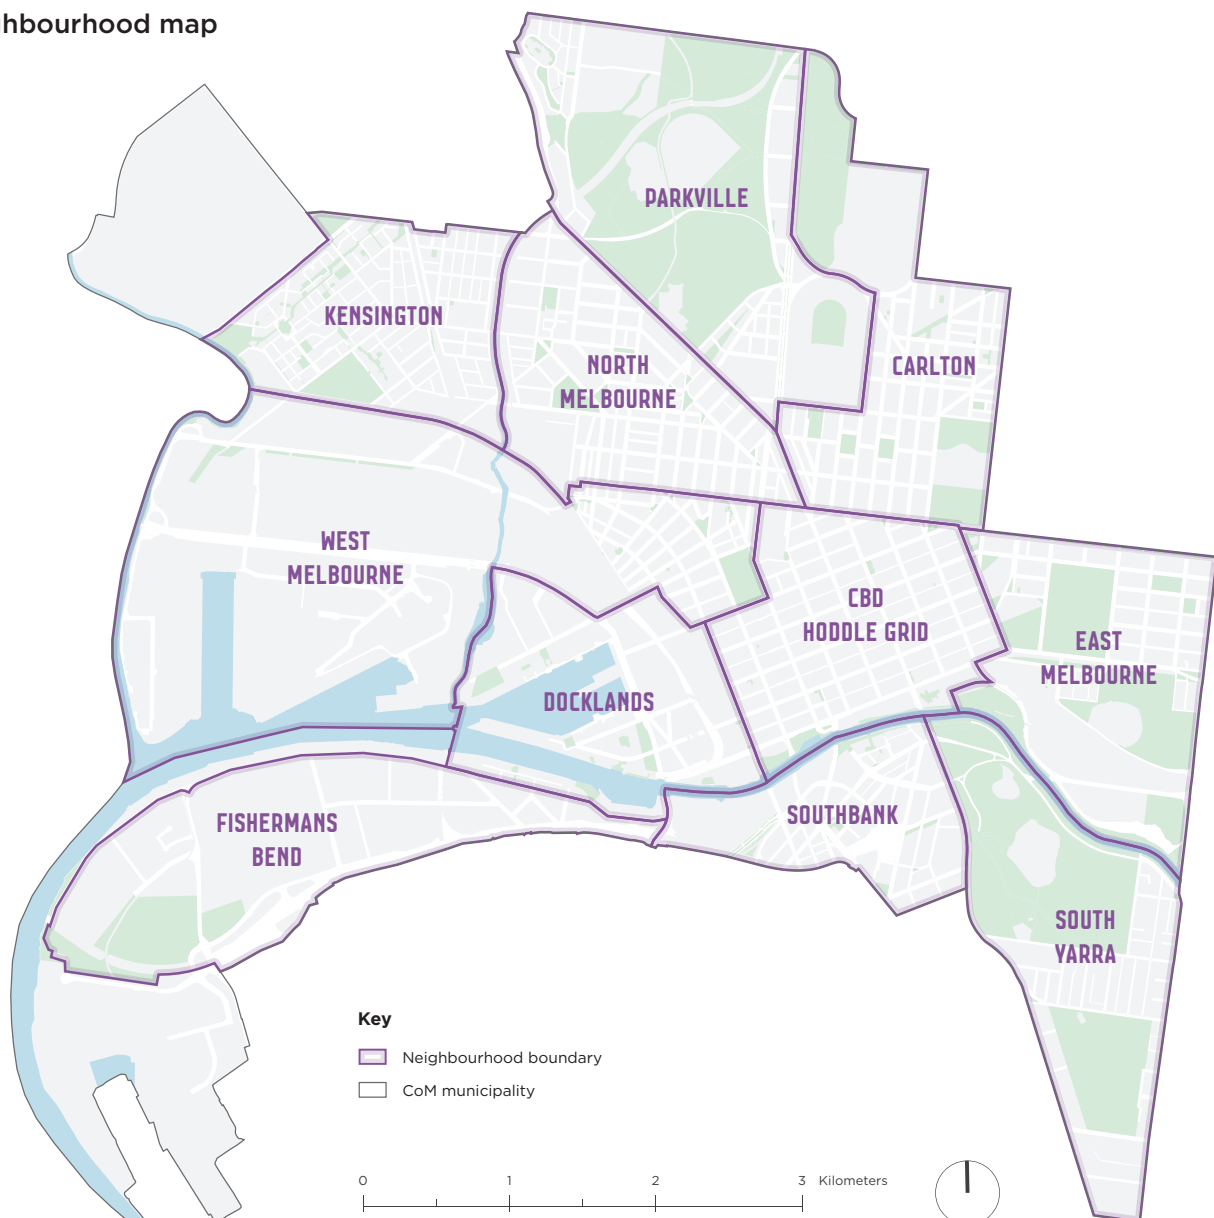

Recognising the unique strengths, needs and outlooks of each pocket of Melbourne, the City of Melbourne is taking a stronger neighbourhood focus – capturing and connecting with the specific aspirations and priorities of our local communities.

While we're all Melburnians at heart, the support and services naturally differ for Carlton, Kensington, North Melbourne, West Melbourne, East Melbourne, Parkville, Docklands, Southbank, South Yarra and the CBD – taking into account the different demographics, opportunities and challenges.

Beginning with Kensington and the CBD, we are progressively identifying a set of neighbourhood priorities for each area of the municipality, based on what we are hearing from local communities about their aspirations.

INTEGRATED PLANNING AND REPORTING FRAMEWORK

Our planning framework describes how the City of Melbourne strives to realise the community's aspirations through a cascading hierarchy of long-term and medium-term plans, resourcing decisions, and the continual process of implementation, monitoring and review.

The suite of documents illustrated in the framework below outlines the processes and decisions the City of Melbourne undertakes in the interests of the municipality – with community input, in accordance with the *Local Government Act 2020* and other key legislation.

10-year perspective

The **Community Vision** represents the community's aspirations for Melbourne over a 10-year period. It guides everything the Council does, including all strategic decision-making and collaboration with key partners, stakeholders and the community. The Community Vision is incorporated into the Council Plan.

The **Municipal Planning Strategy** guides long-term land use and development to achieve desired social, economic and environmental outcomes for the city. It supports the state-wide Melbourne Planning Scheme that governs the use, development and protection of municipal land.

The **Financial Plan** provides a 10-year view of the Council's resources and sources of funding and how those resources will be applied across services, operations, capital investments and assets.

The **Asset Plan** outlines the Council's high-level asset management priorities over a 10-year period and how the Council proposes to manage its portfolio of assets.

Four-year perspective

The **Council Plan** is the Council's four-year commitment to the community. Guided by the Community Vision, it outlines how the Council will strive towards the community's aspirations and how it will measure success.

The **Health and Wellbeing Plan** is integrated into the Council Plan and shapes how we work to protect and promote the health and wellbeing of individuals and the community we serve. To find out more about the Council's health and wellbeing focus areas over four years and what we will do to achieve improved health and wellbeing outcomes, see our Health and Wellbeing Action Plan at

www.melbourne.vic.gov.au/community/health-support-services/health-services/pages/municipal-public-health-and-wellbeing-plan.aspx

The **Budget** details the City of Melbourne's annualised activities over the next four years and the resources required to deliver the Council Plan.

The **Revenue and Rating Plan** describes how the Council will generate income to deliver on the Council Plan, programs and services and capital works commitments.

The **Workforce Plan** describes the anticipated staffing requirements for a period of at least four years and the organisational structure. The Chief Executive Officer is responsible for establishing and maintaining an organisation structure for the Council and is also responsible for all staffing matters.

Annual perspective

The **Annual Plan** (this document) provides a snapshot of what the Council will do over a 12-month period to make progress towards the major initiatives it has committed to delivering in the four-year Council Plan.

The Council's progress on implementation of the Council Plan, Health and Wellbeing Plan and the Budget is presented in the **Annual Report**.

During each financial year, a **Quarterly Budget Report** is prepared for the Council on actual and budgeted results and variances.

COMMUNITY VISION

The City of Melbourne is a city of possibility.

Where the world meets and the extraordinary happens.

COUNCIL'S STRATEGIC OBJECTIVES

In response to the Community Vision, Council developed six strategic objectives for its four-year Council Plan 2021–25. These are outlined below and set the direction for the Council's term. Our vision for Melbourne as a 'city of possibility' anchors and connects these objectives to deliver real outcomes for the community. To read more about our Council Plan, see www.melbourne.vic.gov.au/councilplan

The work of the Council to achieve the Community Vision, strategic objectives and supporting priorities, is set out in a series of major initiatives it is undertaking during its four-year term. Each year, as part of its annual program of work, the Council considers how it will best deliver the major initiatives through a series of key activities, which is outlined in this Annual Plan.

The major initiatives are described in greater detail under each strategic objective chapter on pages 14 to 69, including:

- the key activities and milestones we will deliver in 2022–23
- the outcomes we seek to achieve as a result of delivering this work
- the indicators of success in our Council Plan this work will contribute towards
- the Sustainable Development Goals (see next section) this work will support.

SUSTAINABLE DEVELOPMENT GOALS

In 2015, the Australian Government, together with all United Nations member states, committed to an overarching framework for global development, titled Transforming Our World: The 2030 Agenda for Sustainable Development. It sets out 17 ambitious goals supported by 169 targets and 231 indicators designed to measure progress at a national level.

Action on the Sustainable Development Goals (SDGs) is primarily directed at a national level. However, at the City of Melbourne, we recognise all levels of government must play a role to create change.

Recognising the role a global city like Melbourne has in helping achieve the SDGs, we have reflected in this document how each of the major initiatives the Council is delivering on as part of the Council Plan 2021-2025 relate to particular SDG targets.

Separately, in a first for Australia, the City of Melbourne has conducted a Voluntary Local Review of Melbourne's progress against the SDGs. For more information about this, see www.melbourne.vic.gov.au/about-council/vision-goals/Pages/united-nations-sustainable-development-goals.aspx

OUR PROGRAM OF WORK FOR 2022-23

ECONOMY OF THE FUTURE

Over the next four years, we will focus on driving economic recovery and creating the conditions for a strong, adaptive, sustainable and thriving future city economy supported by a diverse mix of industries and jobs that provide dignity and opportunity.

Our priorities

- The city economy is stronger, resilient and fully recovered from the impacts of COVID-19.
- Existing businesses are supported, new businesses, talent and investment are attracted to the city and our growing residential community has access to employment in the municipality.
- Increased economic participation, with a city economy that is more inclusive and fair, enabling residents access to employment and key workers access to accommodation in the city. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- Doing business in the city is made more attractive by streamlining processes and alleviating costs.
- The central city is a magnet for events and has a strong reputation as a destination to visit, do business, study and live.
- A financially sustainable and highly effective City of Melbourne organisation.
- Melbourne is a digitally connected city that embraces new industries to create next-generation jobs and businesses.

MELBOURNE'S UNIQUE IDENTITY AND PLACE

Over the next four years we will celebrate and protect the places, people and cultures that make Melbourne a unique, vibrant and creative city with world-leading liveability.

Our priorities

- Our environment, parks and waterways are protected, restored and managed well.
- Our built, natural and cultural heritage is protected.
- New buildings, streets and spaces exhibit design excellence to create sustainable and enduring places and our renewal areas are emerging as high-quality inner-city precincts.
- Melbourne's diverse communities are celebrated. This major initiative aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- Melbourne's creative, entertainment and education sectors are supported and nurtured.
- Drawing on the full potential of Melbourne's creative community is central to city planning, design and city operations.
- Melbourne is a university city and aspires to be the number one knowledge city in the world by 2030.

ABORIGINAL MELBOURNE

For the Wurundjeri, Bunurong, Taungurung, Dja Dja Wurrung and Wadawurrung peoples of the Eastern Kulin, the place now known as Melbourne has always been an important meeting place and location for events of political, cultural, social and educational significance. Over the four years of the Council Plan 2021–25, we will ensure that First Peoples’ culture, lore, knowledge, and heritage enrich the city’s growth and development.

Our priorities

- Governing with First Peoples drives our city forward and allows community to make the changes needed for the City of Melbourne to be an Aboriginal city. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- We embrace and promote our First Peoples' identity across all areas of the city, including city design, and give voice to the treaty process with First Peoples. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- The community is well educated about Melbourne's First Peoples' culture, lore, knowledge and heritage.
- The activation and protection of First Peoples' culture and know-how is a key driver to economic growth and increases Melbourne's international engagement and participation.
- First Peoples experts are consulted and lead sustainable land management practices and implement 'Caring for Country' principles in the management, planning and development of city land. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.

CLIMATE AND BIODIVERSITY EMERGENCY

Over the next four years, we will prioritise our environment and take urgent action to reduce emissions and waste in order to protect public health, strengthen the economy and create a city that mitigates and adapts to climate change. The City of Melbourne declared a climate and biodiversity emergency in 2019.

Our priorities

- City of Melbourne is a global leading city that sets the standard in climate action. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas. Lead the transition towards zero net emissions for the city.
- Eliminate waste through circular economies.
- Spaces and buildings showcase world-leading sustainable design principles to enhance liveability and lead innovative responses to climate change, including protecting communities from the impact of extreme weather events. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- Resilient and safe communities that are adapting to the public health impacts of climate change. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
- Biodiversity, habitat, green spaces, water quality and tree canopy cover are increased in the city. This priority aligns with, and contributes to, addressing our city's health and wellbeing focus areas.
