Overlay **H1430**

PROJECT INFORMATION

The City of Melbourne has developed an edible tree planting plan for the Kensington Stock Route as part of the implementation of the Urban Forest Strategy 2012-2032. This plan has been developed in collaboration with the local community. The Stock Route provides a unique location in the City to introduce edible trees, increase species diversity and improve local food production.

The Stock Route is a quiet area where locals can safely harvest fruit away from vehicle traffic and provides a link to local community gardens. The intention of this plan is to be used as a planting guide as and when opportunities arise. A species palette guide for each character zone can be found on the precinct sub-maps. These species are examples based on feedback we heard from the community. They are provided for guidance only and

do not preclude the use of other edible trees that are consistent with the character zones.

Overwhelming support from the community for native edible trees has resulted in an extra native character zone being added to the plan. Additionally, although not indicated on the plan, we will seek to plant native edible trees within Riverside Park. We have consulted with Wurundjeri Woi-wurrung Traditional Owners on the species selection for these zones.

SUMMARY

- Introducing fruit trees and other edible plant species into the Kensington Stock Route and adjacent areas of Riverside Park.
- Establish key character zones of edible deciduous, edible evergreen and edible native trees.
- Retain and preserve heritage character of Stock Route by protecting Heritage listed trees.
- Introduce climate resilient tree species.
- Community consultation showed strong support for this initiative.

HERITAGE TREE SPECIES (EXISTING)

Schinus molle,
Peppercorn Tree

There are a variety of key heritage tree species along the length of the Stockroute, including Peppercorn trees (*Schinus molle*) and English Elms (*Ulmus procera*). These species add to the cultural heritage of the area and will be protected. If they require removal they will be replaced with the same species in line with Heritage requirements.

PRECINCT 1 – EDIBLE NATIVE PLANTING ZONE (TYPE 2)

ENLARGEMENT PLAN

LOCATION PLAN

NATIVE EXAMPLE SPECIES

- | | |
|-----------------|------------------------|
| Finger Lime | Citrus australasica |
| Lemon Myrtle | Backhousia citriodora |
| Macadamia | Macadamia integrifolia |
| Davidson's plum | Davidsonia sp. |

PRECINCT SPECIES (EXISTING)

Brachychiton acerifolius,
Flame Trees

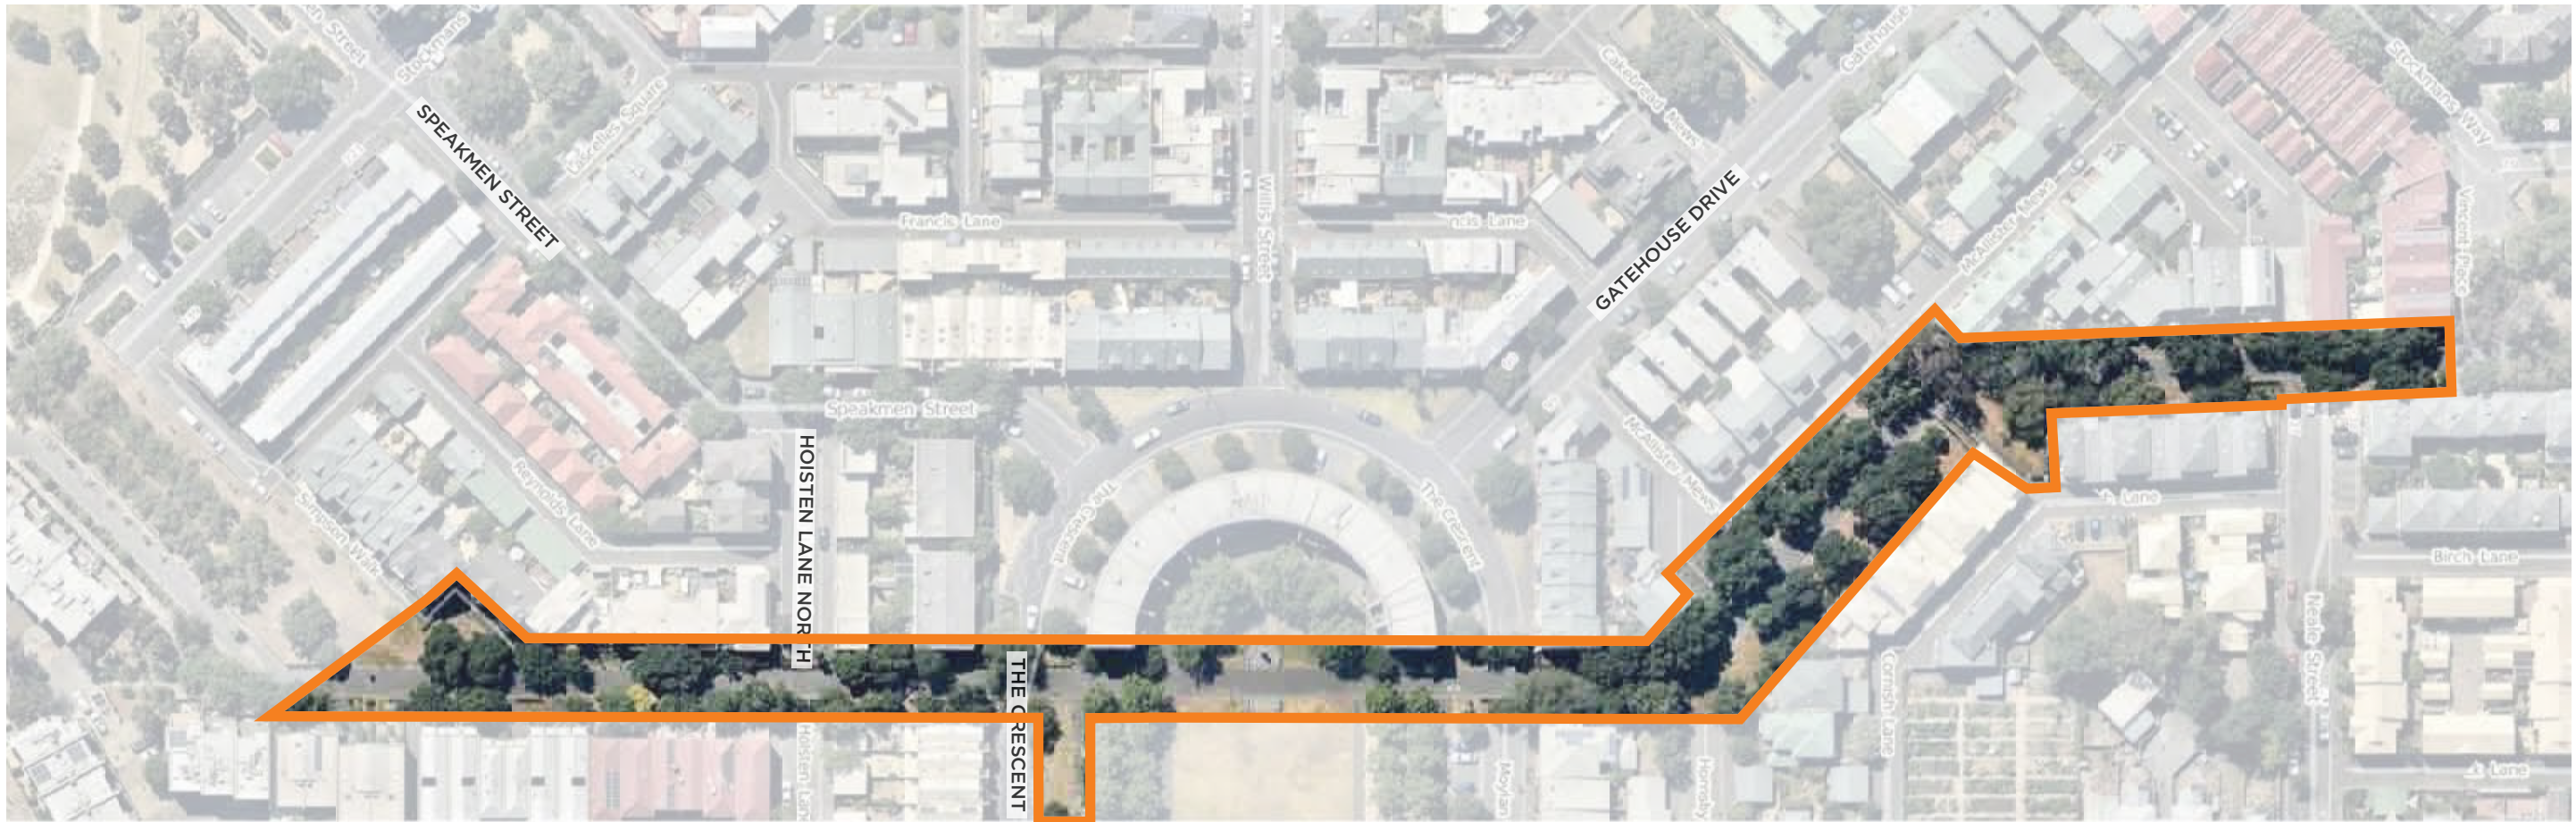

Ficus macrophylla & Schinus molle,
Moreten Bay Fig & Peppercorn

PRECINCT 2 – EDIBLE DECIDUOUS PLANTING ZONE (TYPE 1)

ENLARGEMENT PLAN

LOCATION PLAN

PRECINCT SPECIES (EXISTING)

Platanus acerifolia,
London Plane

Ulmus species,
Elm Trees

DECIDUOUS EXAMPLE SPECIES

- | | |
|-------------|------------------|
| Fig | Ficus palmata |
| Apricot | Prunus armeniaca |
| Almond sp | Prunus dulcis |
| Pomegranate | Punica granatum |

PRECINCT 3 – EDIBLE NATIVE PLANTING ZONE (TYPE 2)

ENLARGEMENT PLAN

LOCATION PLAN

NATIVE EXAMPLE SPECIES

- | | |
|-----------------|------------------------|
| Finger Lime | Citrus australasica |
| Lemon Myrtle | Backhousia citriodora |
| Macadamia | Macadamia integrifolia |
| Davidson's plum | Davidsonia sp. |

PRECINCT SPECIES (EXISTING)

Eucalyptus sideroxylon,
Red Iron Bark

Eucalyptus globulus subsp. maidenii,
Maidens Gum

PRECINCT 4 – EDIBLE EVERGREEN PLANTING ZONE (TYPE 3)

ENLARGEMENT PLAN

LOCATION PLAN

PRECINCT SPECIES (EXISTING)

Syzygium australe,
Creek Lilly-Pilly

Melaleuca linariifolia,
Narrow-leaved Paperbark

EVERGREEN EXAMPLE SPECIES

- | | |
|-------------------------------|------------------|
| Lemon, Orange, Mandarin, Lime | Citrus sp. |
| Avocado | Persea americana |
| Olive | Olea europea |
| Feijoa | Acca sellowiana |

PRECINCT 5 – EDIBLE DECIDUOUS PLANTING ZONE (TYPE 1)

ENLARGEMENT PLAN

LOCATION PLAN

DECIDUOUS EXAMPLE SPECIES

- | | |
|-------------|------------------|
| Fig | Ficus palmata |
| Apricot | Prunus armeniaca |
| Almond sp | Prunus dulcis |
| Pomegranate | Punica granatum |

PRECINCT SPECIES (EXISTING)

Populus alba,
White Poplar

Ulmus species,
Elm Trees

PRECINCT 6 – EDIBLE EVERGREEN PLANTING ZONE (TYPE 3)

ENLARGEMENT PLAN

LOCATION PLAN

EVERGREEN EXAMPLE SPECIES

- | | |
|-------------------------------|------------------|
| Lemon, Orange, Mandarin, Lime | Citrus sp. |
| Avocado | Persea americana |
| Olive | Olea europea |
| Feijoa | Acca sellowiana |

PRECINCT SPECIES (EXISTING)

Schinus molle,
Peppercorn Tree

Acacia & Eucalyptus species,
Wattle & Gum trees
