### Use of land

#### Exemption from notice and appeal

An application for use is exempt from the notice requirements of Section 52(1)(a), (b) and (d), the decision requirements of Section 64(1), (2) and (3) and the review rights of Section 82(1) of the Act.

#### Decision guidelines

Before deciding on an application, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- The existing and future use and amenity of the land and the locality.
- The provision of physical infrastructure and community services sufficient to meet the needs of the proposed use.

## 3.0

## Subdivision

07/04/2008 - / - / -  
 692 Proposed C376melb

## Requirements

A permit is required to subdivide land.

Car parking areas must be retained in a single or a consolidated title as common property, unless the responsible authority agrees otherwise.

## Application requirements

An application for subdivision must be accompanied by, as relevant, information that demonstrates how the subdivision will allow for the transition of car parking spaces to alternate uses over time.

## Exemption from notice and appeal

An application to subdivide land is exempt from the notice requirements of Section 52(1)(a), (b) and (d), the decision requirements of Section 64(1), (2) and (3) and the review rights of Section 82(1) of the Act.

## Decision guidelines

Before deciding on an application, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- Whether the subdivision will facilitate the future adaptation or repurposing of proposed car parking areas.
- Whether the subdivision promotes the efficient use of car parking spaces.

## 4.0

### Requirements - design of car parking facilities

Where car parking facilities are provided as part of an application they should:

- Be designed to facilitate the future adaptation to support alternate uses in the short and long term.
- Include design features, including electric vehicle charging points, which support more sustainable forms of private car usage.

The location and design of car share parking spaces should be:

- Publicly accessible.
- In the most accessible level of a multi-storey car park.
- Well-lit and a short distance from an entry point, lift or staircase.
- In a location with a minimum height clearance to allow access by a cleaning van.

Car parking facilities should be designed in accordance with the following Design Standards:

- Development of car parking areas should include the delivery of infrastructure (including electricity supply and signage), space and metering arrangements to support the installation of electric vehicle (EV) charging points.
- Where a facility is proposed with 50 car parking spaces or more, all of the following should be provided:
  - .. EV ready parking bays for a minimum of 5% non-shared parking spaces.
  - .. Sufficient infrastructure capacity to accommodate EV charging for 20% of parking spaces.
  - .. EV charging points at all allocated shared car spaces.

### Exemption from notice and appeal

An application to construct a building or construct or carry out works or demolish or remove a building or works is exempt from the notice requirements of Section 52(1)(a), (b) and (d), the decision requirements of Section 64(1), (2) and (3) and the review rights of Section 82(1) of the Act.

### Decision guidelines

Before deciding on an application, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- The siting and design quality of all buildings and works and their suitability for the use proposed in the context of the adjacent area.
- The provision of site landscaping in the context of adjacent areas.
- The effect on the visual amenity, landscape and streetscape of the area.

- The impact on the importance, character and appearance of any building, area or place of scientific, aesthetic, architectural, or historical importance.
- Where new buildings incorporate dwellings, the design should respect and anticipate the development potential of adjacent sites, to ensure that the future development of the adjacent sites does not cause a significant loss of amenity to the subject site.
- For residential development, ensure appropriate noise attenuation measures are adopted to limit internal and external noise to appropriate levels.
- The design and treatment of the public realm including the solar access to existing open spaces.
- The wind effects of the proposed development at ground level.
- The ability of car parking facilities to transition to alternative uses over time.
- The contribution of the development to an increase in the availability of off-street electric vehicle charging facilities.
- How the development supports the transition to a 70% mode share for public transport, walking and cycling.
- The contribution the development makes to increasing the provision of car share facilities.
- The design, location, accessibility and security (including suitable lighting and locking devices) of bicycle facilities.
