## SCHEDULE TO CLAUSE 43.01 HERITAGE OVERLAY

### 1.0

21/09/2022  
C409melb

#### Application requirements

The following application requirements apply to an application under Clause 43.01, in addition to those specified elsewhere in the planning scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- A comprehensive explanation as to how the proposed development achieves the policy objectives of Clause 15.03-1S, and Clause 15.03-1L Heritage or Clause 15.03-1L Heritage (Old categorisation system).
- Information on the history of the place, where there is limited information in an existing citation or council documentation.
- A Heritage Impact Statement in accordance with Heritage Victoria's Guidelines for preparing Heritage Impact Statements. For a heritage precinct, the statement should address impacts on adjoining significant or contributory buildings and the immediate heritage context, in addition to impacts on the subject place.
- For major development proposals to significant heritage places, a Conservation Management Plan in accordance with the *Conservation Management Plans: Managing Heritage Places - A Guide* (Heritage Council of Victoria, 2010).
- For works that may affect significant vegetation (as listed in the schedule to the Heritage Overlay or vegetation of assessed significance), an arboricultural report. The report should, where relevant, address landscape significance, arboricultural condition, impacts on the vegetation and impacts on the assessed significance of the heritage place.
- For development in heritage precincts, sightlines and heights of existing and adjoining buildings, streetscape elevations, photos and 3D model, as necessary to determine the impact of the proposed development.
- For building relocation or full demolition, information that demonstrates a method to record its location on the site prior to relocation or demolition and supervision of the works by an appropriately qualified person including archival photographic recording and/ or measured drawings.
- For alterations, works or demolition of an individual heritage building or works involving or affecting heritage trees, a conservation analysis and management plan in accordance with the principles of the *Charter for the Conservation of Places of Cultural Significance* (Australian International Council on Monuments and Sites, 2013, 'the Burra Charter').

### 2.0

19/10/2022
