INTRODUCTION

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme which are categorised as 'significant' or 'contributory' are listed in this document. This document also indicates whether they are located in a significant streetscape.

Buildings contained in the Heritage Overlay of the Melbourne Planning Scheme are 'non-contributory' if they are not:

- Categorised as 'significant' or 'contributory' in this document or another incorporated heritage document to the Melbourne Planning Scheme, or
- Graded in the *Heritage Places Inventory 2020 Part B* or another incorporated heritage document to the Melbourne Planning Scheme, or
- Contained in the *Central City Heritage Study Review 1993*.

The property listings are divided into the following geographical areas:

- Carlton and Carlton North;
- East Melbourne and Jolimont;
- Flemington and Kensington;
- Melbourne;
- North and West Melbourne;
- Parkville;
- Southbank, South Wharf and Docklands and Port Melbourne; and
- South Yarra.

Within each area individual properties are listed alphabetically by street name and numerically.

In addition to this document, further information regarding heritage buildings can be found in the relevant heritage study, statement of significance and/or "Building Identification Form".

The policies in the Melbourne Planning Scheme applied by the Responsible Authority when considering relevant planning permit applications are dependent on the particular building category and whether it is in a significant streetscape.

The building category and significant streetscape definitions are in the Melbourne Planning Scheme.

DEFINITIONS

Term	Definition
Concealed/partly concealed	Concealed means cannot be seen from a sheet (other than a lane, unless the land has heritage value) or public park. Partly concealed means that some of the addition or higher rear part may be visible provided it does not visually dominate or reduce the prominence of the existing building's façade(s) in the street.
Contextual design	A contextual design for new buildings and additions to existing buildings is one which adopts a design approach, derived through analysis of the subject property and its heritage context. Such an approach requires new development to comfortably and harmoniously integrate with the site and the street character.
Contributory heritage place	A contributory heritage place is important for its contribution to a heritage precinct. It is of historic, aesthetic, scientific, social or spiritual significance to the heritage precinct. A contributory heritage place may be valued by the community; a representative example of a place type, period or style; and/or combines with other visually or stylistically related places to demonstrate the historic development of a heritage precinct. Contributory places are typically externally intact, but may have visible changes which do not detract from the contribution to the heritage precinct.
Enhance	Enhance means to improve the presentation and appearance of a heritage place through restoration, reconstruction or removal of unsympathetic or intrusive elements; and through appropriate development.
Facadism	The retention of the exterior face/faces of a building without the three-dimensional built form providing for its/their structural support and understanding of its function.
Front or principal part of a building	The front or principal part of a building is generally considered to be the front two rooms in depth, complete with the structure and cladding to the roof; or that part of the building associated with the primary roof form, whichever is the greater. For residential buildings this is generally 8-10 metres in depth. For most non-residential buildings, the front or principal part is generally considered to be one full structural bay in depth complete with the structure and cladding to the roof or generally 8-10 metres in depth. For corner sites, the front or principal part of a building includes the side street elevation. For sites with more than one street frontage, the front or principal part of a building may relate to each street frontage.
Individual heritage place	An individual heritage place is equivalent to a significant heritage place. It may be categorised significant within a heritage precinct. It may also have an individual Heritage Overlay control, and be located within or outside a heritage precinct.
Lane	A lane is a narrow road or right of way (ROW) generally abutting the rear or side boundary of a property. It may be paved or unpaved and in public or private ownership and will typically provide vehicle access to adjoining properties.
Non-contributory	A non-contributory place does not make a contribution to the cultural significance or historic character of the heritage precinct.
Respectful and interpretive	Respectful means a modern design approach to new buildings, additions and alterations to buildings, in which historic building size and form are adopted, and proportions and details are referenced but not directly copied, and sympathetic colours and materials are used. Interpretive means a looser and simplified modern interpretation of historic building form, details and materials.
Services and ancillary fixtures	Services and ancillary fixtures include, but are not limited to, satellite dishes, shade canopies and sails, solar panels, water storage tanks, disabled access ramps and handrails, air conditioners, cooling or heating systems and hot water services.

Term	Definition
Significant heritage place	A significant heritage place is individually important at state or local level, and a heritage place in its own right. It is of historic, aesthetic, scientific, social or spiritual significance to the municipality. A significant heritage place may be highly valued by the community; is typically externally intact; and/or has notable features associated with the place type, use, period, method of construction, siting or setting. When located in a heritage precinct a significant heritage place can make an important contribution to the precinct.
Significant streetscape	Significant streetscapes are collections of buildings outstanding either because they are a particularly well preserved group from a similar period or style, or because they are a collection of buildings significant in their own right.
Visible	Visible means anything that can be seen from a street (other than a lane, unless the lane is identified as having heritage value) or public park.
