Appendix D Name

Think carefully before you include Appendices. As a general rule there is no need to include the exhibited Amendment documentation as an appendix.

Panel Version of Documents

It is often good practice to include overlay schedules or other documents as a 'Panel Preferred Version' if there has been considerable discussion about changes during the Hearing. Including the preferred version in an Appendix makes it clear in such cases what has been recommended.

PPV styles have been created to show the Panels changes to schedules. Use this instead of actual Track-Changes so they don't accidentally get accepted/rejected by Panel PPV/Planning Authority.
